

FIXED AND MOBILE DISINFECTION SYSTEMS

for the fish processing sector

Proper disinfection is crucial in the food industry. The most effective way is to forcefully introduce the disinfectant into a space.

This can be done with Jasca's disinfection units.

- **High reduction of microorganisms**
- **Disinfection in all hard-to-reach areas**
- **Faster and more effective than manual disinfection**
- **Automatic operation**
- **Minimal amount of disinfectant required**
- **Environmentally friendly**
- **Energy and cost saving**
- **Both fixed and mobile systems**

Jasca Food Technology BV

Westwal 4b, 7631 BN Ootmarsum
